PANZER PRINCESS

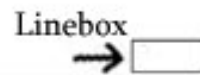

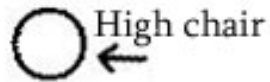

RIDER DOCUMENT 2007: ALL VENUES

(PAGE 2 OF 3)

Technical requirements at the Venue

- Monitor:** 3-4. (2-4 way) system. That is 1 for every vox position and preferably one for drum position
- Microphone song:** 3 standard (dynamic) ex. Beta 58.
- Other:** Line box for an acoustic git.
A high chair ("Bar" model)
All Mics / Cables / Stands and everything else needed that is not included in the Backline specification.

Channel requirements at the venue

At least 7 mono inputs and 1 stereo input (also works with 2 extra mono inputs).
But preferably 13 mono inputs and 1 stereo input (also works with 2 extra mono inputs).

- Specified as:
- Drums: 7 ch. (Kick, Snare, Hi-Hat, Tom & Floortom, 1 Crash, 1 Ride)
 - Bass: 1 ch. (Direct input)
 - Guitars: 2 ch. (Line box (Acoustic Gtr) & a Mic. for the cabinet)
 - Song: 3 ch.

Backline

Guitar: Orange OR120 head , Orange 4x12" cab
Bass: Hartke 3500 (350W) , Hartke 4x10" +5" cab (XL-series)
Drums: Pearl Export (see stageplot for spec.)

Panzer Princess will bring all backline to the venue if nothing else is agreed in the contract.

If any other band wants to use PP's backline, contact PP before the show date!!!

Its always nice to ask, even if its obvious...

Requirements on the venue

PP will need a room (as big as possible) where they can store instruments and get ready for the gig. The door to the room has to have a working lock!
The room (or somewhere near without entering any public area) should have WC, electricity and a mirror.
There should be a cleared passage between backstage and the stage before PP enters the stage.

PA / MONITOR / LIGHTING

The PA system, Monitor system, Lighting rig should be well enough dimensioned for the venue...
If there's a Smoke machine/Hazer/Cracker be sure to use it!!!
That's about it =)
